# TYPICAL JCL CRUISES

*On The St. Johns River - Jacksonville, Florida.*

The most popular JCL cruise gives guests a river view of the central business district, the sports and entertainment complex, the JaxPort Talleyrand terminal and the beautiful river front homes. Departing from the Jacksonville Landing, the yachts proceed downstream past the Metropolitan Park, home of the Jacksonville Jazz Festival and outdoor concerts. There, the city marina provides dockage for boats attending the festival and the NFL Jacksonville Jaguars games at Everbank stadium. Further downstream we pass North Florida Shipyards as we approach the beginning of the JaxPort terminals. From there we return through the city and beneath the I 95 Bridge where the St. Johns widens to a majestic 3 miles. A close in cruise along the San Marco residential neighborhood showcases waterfront living at its finest. As we turn back towards the city, a look to the south shows the Naval Air Station and a look to the north, the beautiful Jacksonville skyline. This cruise takes approximately 2 hours (and may be run in the opposite rotation).
